DKV Dentisalud

Because I like to laugh

Take good care of yourself

a member of **MUNICH HEALTH** 

You choose your dentist, it's as easy as that

DKV Dentsalud

This policy guarantees you a quality service, an associated network of over 1,500 prestigious dentists and selected dental clinics, various free dental treatments and other subsidized treatment at rates well below those of the market.

What you really need, always covered

Diagnosis unit

Examination and observation, treatment, quotes...

Odontology

- › **Preventive:** gel or fluoride applications, dental cleans, sealing of cavities and fissures, dental education.
- › **Conservative:** to conserve teeth through obturations, endodontics... (known as fillings, killing nerves).
- › **Medical:** periodontics (curettages, hygiene, check ups). Everything related to the gums.
- › **Surgical:** extraction of teeth.
- › **Fitting of dental prostheses:** caps, bridges skeletal cases, etc, which may be fixed, removable or partial.

Orthodontics

- › **Orthodontic treatment:** study, evaluation and diagnosis.
- › **Fitting of dental accessories:** as treatment for the correction of teeth in children and adults.

Dental aesthetics

From whitening of pieces to fitting veneers.

Implants

To substitute missing pieces, without touching neighbouring teeth, by means of inserting titanium screws.

If you have a serious dental accident, don't worry, we cover any dental damage

If the accident results in the loss or breaking of more than three teeth, we will offer you compensation for the repair or reconstruction up to a maximum limit of 6.000 EUR, through the **refund of expenses (free choice of dentist)**, without applying an excess.

Only advantages

With taking it out

Does not require a health declaration, nor does it have limits or differences depending on your age.

With using it

Select your dentist from the directory, contact him directly to make an appointment and identify yourself with your DKV Dentsalud card. They will give you a quote for the requested treatment and answer any questions that you may have.

With choosing a modality
